

3D Lipo is the ultimate combination of cutting edge technologies offering a complete and prescriptive approach to non-surgical face and body treatments. Each and every client is individually assessed and a personal treatment plan is devised. This may be a combination of treatments and the time is dependent upon the size of area to be treated. All results will last long-term.

We offer free consultations where one of our professionally trained 3D Lipo Therapist will work with you to plan your desired result.

For the body

We can treat most of the body including Arms, Abdomen, Inner thigh and Outer thigh, buttocks, hips, male chest, bra folds, above the knee area, chin area, and Love handles.
